

Bike Week 2007

This will soon be upon us. Plans are well in progress. This meeting will include updates on the following areas (30 minutes):

- Charity rides (Pedal Power and Cancer Research)
- *Wheel to Reel – Bicycle Film Week*: announcement of listings
- Film week reception: what's planned
- Bicycle Brunch on Sunday 17 June
- Longest Day Ride Thursday 21 June
- plans for Cycle Cardiff information stalls

We also need to look into promotion, so we'll spend some time planning for this.

Regular Rides

Believe it or not, we've now had twenty of these. Numbers of participants are growing. This meeting will include the following discussions (40 minutes):

- 1 **General improvements:** While generally successful, what can we learn from experiences so far?
- 2 **Contingencies:** Obviously, things may not always go to plan, so what could be done to deal with these situations?
- 3 **Inclusivity:** How can we make sure that we stay inclusive and maintain the community function of the group's cycling activities, especially in relation to Bike Week?
- 4 **Route planning:** Can we improve our repertoire of rides, especially in and near the city?

Related issues

Ely Bridge Demo

Many people will have attended this, but we will have a brief update on this and what might be happening next. (10 minutes)

Cardiff Cycling Strategy

There have been developments on this since last year, so Nick will give a quick summary of recent information. (10 minutes)

Bike Maintenance

Quick update on this and where to take it next.
